Classic Glass And Wood Fitting Cat Door

⚠ Glass Installation only to be completed by professional glazier

1
Measure the height (x) from the underside of the cats stomach to the floor.

2
Mark height (x) on glass panel with tape or similar, and cut required hole out above.

3
Install exterior frame into hole and slide interior frame over top to required fit.

4
Ensure door is level and secure using the 3 enclosed screws and plastic caps
