Pet-Corp Wood Fitting Dog Door

SINGLE GLAZING	
DOUBLE GLAZING	
SLIDING DOORS	
SCREEN DOORS	
PANEL	
WOOD	
WALL	

Designed to help conserve energy in insulated homes or ones with dual glazing. Its slim line door profile will sit flush with your door regardless of the door type. The door flaps are virtually unbreakable, a signature of the Pet-Corp range. The frames are fitted with security slides locking the flap securely in place. When not in a locked position the flap is held in place against strong winds when closed via two powerful magnets and comes with a full brush weather seal to prevent draughts.

FEATURES

- Designed for panel, double glazing and wood installations up to 50mm thick
- Slim line design
- Virtually unbreakable insulated Polycarbonate flaps
- 2 x way locking
- Additional security locks for added protection
- Self lining design
- Self closing magnetic locating flap
- Low maintenance, simple to clean
- Brush weather seal to reduce draughts
- Suits small to large dogs
- 3 years warranty against faulty manufacture

Pet-Corp Aluminium Wood Fitting Dog Door

SINGLE GLAZING	
DOUBLE GLAZING	
SLIDING DOORS	
SCREEN DOORS	
PANEL	
WOOD	
WALL	

Designed to be aesthetically pleasing whilst maintaining the rugged durability of aluminium construction. Suitable for dual glazing installations with an additional glazing kit. The door will fit an IGU unit with a thickness between 18mm to 40mm. Flexible unbreakable flaps seal against the aluminum frame with a brush weather seal, held in place by powerful magnets. Ultimate security is provided via a tough composite panel with a robust locking mechanism.

FEATURES

- Fits doors 30mm to 50mm
- Fits IGU units 18mm to 40mm
- Robust aluminium construction
- Flaps held in place by powerful magnets
- Flaps remain flexible in cold conditions
- Silicone coated brush seals
- Self lining frames
- Security panels with two locking mechanisms
- Simple installation
- 3 years warranty against faulty manufacture

PetSafe Microchip Cat Flap

SINGLE GLAZING	
DOUBLE GLAZING	
SLIDING DOORS	
SCREEN DOORS	
PANEL	
WOOD	
WALL	

The PetSafe Microchip Cat Flap only opens when a pet with a programmed microchip walks up to the door. Programming a microchip to the door is quick and easy. You can program up to 40 pets making it great for multi-cat families. Customise your cat's access with the 4-way lock on the cat door. Set the door to locked, unlocked, in-only or out-only to keep your favourite feline safe and secure.

FEATURES

- Only opens for programmed pets, keeping unwanted animals out of your home
- Program up to 40 pets
- 4 locking options let you customise your cat's access
- Energy-efficient weather stripping and 2 magnetic locking points
- Installation into most wood, PVC and uPVC doors
- PetSafe Cat Flap Adaptor (PSA-S) required when installing into metal, glass, and brick, sold separately
- PetSafe Cat Flap Tunnel (PST-S) needed for wall installation, sold separately

INSTALLATION INFORMATION

Door without metal cut out size	168mm width x 175mm height
Door/Wall with metal on inside or outside (uPVC, wood etc) cut out size	250mm, cut out as per shaped template supplied
Wall without metal cut out size	168mm width x 175mm height
Single glazed glass cut out size	215mm diameter
Double glazed glass cut out size	260mm diameter
Cat size	Up to 8kg
Overall size	220mm width x 239mm height
Flap size	145mm width x 135mm height

DOUBLE GLAZING	
SLIDING DOORS	
SCREEN DOORS	
PANEL	
WOOD	
WALL	

FEATURES

- Designed for wood installation but can also be installed in to glass
- TCD-PD is suitable for spaniels, terriers, poodles, beagles etc. with shoulder height up to 460mm
TCD-PDL is suitable for labradors, german shepherds etc. with shoulder height up to 630mm
- Transparent flap
- Sliding 2 way locking panel
- Heavy duty magnetic catch
- Silent action
- Easy installation
- Installation in wood panels up to 50mm

INSTALLATION INFORMATION

Glass cut out size

If you choose to install this dog door in glass or double glazing by cutting a square hole, the cut out dimensions will have to be altered to allow for the bolts to clear the cut out rather than going through the wood in the usual way. Glasscorp recommends purchasing the door before ordering or cutting glass.

Wood cut out size

TCD-PD	242mm width x 300mm height
TCD-PDL	318mm width x 391mm height
